The Department of Aging and Adult Services (DAAS) requests authorization to modify the existing grant with On Lok Day Services for the provision of an anti-bullying education pilot program for the period of July 1, 2016 to June 30, 2018, in an additional amount of $50,000 plus a 10% contingency for a new grant amount not to exceed $1,804,823. The purpose of this modification is to fund the creation of an “Enhancing Healthy Relationships” curriculum that will test and establish protocols for a senior bullying prevention training.

Background
Senior Centers are experiencing an increase in behavioral incidents among participants. At On Lok Day Services’ 30th Street Senior Center alone, staff has intervened in at least 15 cases of seniors bullying other seniors during the past year, sometimes having to issue temporary
suspensions of service to the offenders. These suspensions, intended to maintain safety for both seniors and staff in the community center, do not solve the endemic issue of bullying, and the offending individuals sometimes carry their behavior to other senior centers. At a recent Coalition of agencies serving the Elderly (CASE) membership training, “Recognizing and Responding to Bullying Behavior in Older Adults”, nearly all CASE members indicated that they had witnessed and/or been on the receiving end of bullying by seniors.

**Services to be Provided**
The modification will provide for the design, implementation, evaluation and possible replication of a program to stop bullying by other seniors within senior centers, using input from the staff and consumer population of the 30th Street Community Services program. This educational approach will raise awareness of bullying among seniors, and instruct individuals on the techniques of mitigating the harmful effects of bullying as much as possible. These efforts will help maintain a safe Senior Center space for staff, volunteers and seniors.

During the 16/17 and 17/18 fiscal years, this modification funding will result in a series of focus groups aimed towards collecting and analyzing the perspectives of seniors who have experienced bullying behavior. These focus groups will help inform a training regimen that will be administered in nine sessions to both Senior Center staff and consumers, with the intention of instructing the participants to identify and appropriately respond to instances of bullying. Grantee will then submit its training model proposal to the American Society on Aging for possible program replication across other Senior Centers.

For additional information regarding this proposed initiative, please see the attached Scope of Services.

**Selection**
Grantee was selected for funding of Community Services through NOFA #531, issued in December of 2012.

**Funding**
Funding for this modification will be supported entirely by General Fund dollars. The modification funding will primarily cover consultant training and project coordinating staff, as well as smaller expenses related to translation, printing, and office supplies.
