#### Services to be Provided

#### Community Bridge Model

The Community Bridge model started as a pilot project 'hybrid' of a Village model and a site-based Community Center in FY14/15. Now known as a Community Bridge model, this program builds upon site-based Community Service programs, blending off-site service coordination, development of social networks, and the recruitment of volunteers to help with delivery of services. The Community Bridge model supports seniors and adults with disabilities within its immediate service area.

Grantee Golden Gate Senior Services' Community Bridge program is based at the Richmond Senior Center and focuses its services in the Richmond District.

#### Village Model

The Village model is a membership driven organization through which paid staff, volunteers, and the members themselves coordinate a wide array of services for the purpose of supporting independence and aging in place. DAS-funded Village model programs share a defined set of core elements including an annual membership fee which encourages a high engagement of members, a financial sustainability plan, use of volunteers for delivery of services, membership services to assist with member requests, and educational activities designed to promote awareness of aging and aging-in-place resources.

Grantee San Francisco Village offers its Village model services citywide, and Grantee NEXT Village San Francisco focuses its Village model services on Supervisorial District 3, the Northeastern section of the City.

#### Selection

Grantees were selected through RFP #1056, which was issued in April 2023.

#### Funding

Funding for these grants is provided thru County General Funds

## V. Description of Services

The Village model is a membership-driven organization with the goal of allowing community members to reside in their own homes while being able to access services that address their changing lifestyles as they age.

The program will include the following five (5) core elements:

- <u>Financial Sustainability</u> The program will be required to develop an organizational plan to demonstrate current as well as future financial sustainability. This may include City/DAS funding, but should also include membership fees, fundraising, and other funding opportunities. During the annual monitoring process, an OCP program analyst will review the financial sustainability plan to determine compliance with the plan as well as barriers or other challenges faced by the program.
- <u>Membership Fee</u> The program will have a minimum membership fee of \$120 per year. In addition to supporting the program's self-sufficiency, an annual membership fee encourages member engagement and program leadership's close attention to service offerings and member satisfaction. All membership fees will be paid by member, member spouse, children, or household member. Acceptance of membership fees from sources other than these requires pre- approval from the OCP program analyst. Review of membership payment and sources will be part of the annual program monitoring process.
- 3. <u>Volunteer Recruitment and Development</u> The program relies heavily on the volunteers that take the time to become trained and assigned to work with specific members. The

program will develop volunteer recruitment, training, and retention practices to maximize volunteer support of the program.

- 4. <u>Membership Services</u> The program will have a central contact point for coordination of membership services. Membership services will accept requests for services and then coordinate completion of those requests through paid staff, volunteers, or other members. Membership services will provide a "concierge-like service" which will include providing referrals to a vetted list of third-party services such as gardeners, handy persons, legal services, and other types of services which may be central to the goals of the program.
- 5. <u>Educational Activities</u> There is often lack of knowledge within the aging and disability community regarding services available to provide support, encourage independence, and promote aging in place. ## IV. Location and Time of Services

San Francisco Village is located at 3220 Fulton Street. The offices accommodate some Village activities while other activities happen in different neighborhoods in San Francisco, including member's homes.

### V. Description of Services

The Village model is a membership driven organization with the goal of allowing community members to reside in their own homes while being able to access services that address their changing lifestyles as they age.

### Each Village model will contain the following five (5) core elements:

- Financial Sustainability. A Village model program will be required to develop an organizational plan to demonstrate current as well as future financial sustainability. This may include City/DAS funding, but should also include membership fees, fundraising, and other funding opportunities. During the annual monitoring process, DAS program analyst will review financial sustainability plan to determine compliance with plan as well as barriers or other challenges faced by Village program.
- Membership Fee. All Village programs will have a minimum membership fee of \$120 per year. In addition to supporting program self-sufficiency, an annual membership fee encourages engagement of the membership as well as close attention to service offerings and member satisfaction by Village leadership.

All membership fees will be paid by member, member spouse, children or household member. Acceptance of membership fees from sources other than these requires pre-San Francisco Village 3 Appendix A Village Model FY23-27 approval from Office of Community Partnerships analyst. Review of membership payment and sources will be part of the annual program monitoring process.

- 3) <u>Volunteer Recruitment and Development</u>. The Village model relies heavily on the volunteers that take the time to become trained and assigned to work with specific Village members. Each Village program will develop volunteer recruitment, training, and retention practices to maximize volunteer support of their Village.
- 4) <u>Membership Services</u>. The Village model will have a central contact point for coordination of membership services. Membership services will accept requests for services and then coordinate completion of those requests through paid staff, volunteers, or other members. Membership services will provide a "concierge-like service" which will include providing referrals to a vetted list of third party services such as gardeners, handypersons, legal services, and other services which may be central to the goals of the Village model.
- 5) <u>Educational activities</u>. There is often a lack of knowledge within the aging and disability community regarding services available to provide support, encourage independence, and promote aging-in-place. Grantee will develop educational activities among their membership to help increase awareness around aging and aging-in-place services, including DAS/OCP resources.

On an annual basis, the Grantee will provide the following services as part of the Village model:

1) <u>Unduplicated Consumers</u>. Grantee will provide service to unduplicated consumers which consist of the membership base.

UNIT: One unduplicated consumer who is also a member of the Village program.

Grantee will increase outreach and expand respective Village model membership through specific outreach to the target population; making presentations at public forums, neighborhood associations, and other interested parties about the Village model.

UNIT: One new individual member.

3) <u>Volunteer Recruitment and Development</u>. The Village model relies on the volunteers recruited, trained, and assigned to work with specific Village members. Grantee will conduct outreach to draw volunteers that will commit to a minimum service requirement.

UNIT: One volunteer

 Service hours. One of the unique features of the Village model is the utilization of volunteers and the members themselves to provide services to the membership. Volunteer hours shall include: volunteer and member time spent providing Village services to members.
