The purpose of the grant is to provide family caregiver support programming to San Francisco residents who are informal caregivers.

Background

The Family Caregiver Support Program (FCSP) is a program created as Title III-E of the Older Americans Act. The Administration on Aging administers the program at the Federal level, and the California Department of Aging and the San Francisco Department of Disability and Aging Services (DAS) administers the program at the state and county levels, respectively. The service design of the FCSP is to promote an effective caregiver support system by improving both caregiver's and care recipient's well-being, increase public support for family care and support caregivers by formal and informal community support structures. Families are the mainstay underpinning long-term care (LTC) for older persons in the United States.

Services to be Provided

Grantee provides assistance to San Francisco residents age 18 years or older who are caring for an adult age 60 years or older; or individuals of any age with Alzheimer's disease or related disorder with neurologic and organic brain dysfunction. Services provided by Grantee, Family Caregiver Alliance, include information to caregivers about available services, assistance to caregivers in gaining access to services, individual counseling, caregiver support groups, caregiver training to assist the caregivers in making decisions and solving problems relating to their care giving roles, temporary respite care to enable caregivers to be temporarily relieved from their care giving responsibilities, community outreach to make the public aware of their services, and supplemental services to complement the care provided by caregivers.

Family Caregiver Alliance will also work in collaboration and partnerships to help reach San Francisco's diverse population. They will do this by subcontracting with four (4) multicultural/culturally sensitive San Francisco community-based organizations:

1. **Self Help for the Elderly (SHE)**, a long-established San Francisco based non-profit works to promote independence, dignity, and self-worth for senior adults and their families to meet the unique needs of the Chinese and A/PI communities. For this grant SHE will facilitate the delivery of caregiver information, access, support and supplemental caregiver services targeted to low-income residents.

2. **Kimochi**, a long-established San Francisco based non-profit organization, effectively addresses the unique needs of Japanese and Korean seniors and their caregivers who have limited resources and options available to them. For this grant, Kimochi will provide Family Caregiver Support services including bi-lingual caregiver education classes independently and co-lead with FCA, bi-lingual caregiver support groups, interpretations/translation assistance and counseling.
3. **SteppingStone Adult Day Health** a long-established San Francisco based non-profit organization serving LGBTQ+ seniors and adults with disabilities in an adult day health setting, located South of Market. For this grant, SteppingStone Adult Day Health will provide public information on caregiving, caregiver assessment, and caregiver counseling.
4. **Catholic Charities**, a long-established San Francisco based non-profit organization serving older adults. For this grant, Catholic Charities will provide caregiver support groups and caregiver training.

The Family Caregiver Support Program (FCSP) services are located at 235 Montgomery St, Suite 930. Administrative offices are open during regular business hours. Services are provided throughout San Francisco at various times, seven days a week.
