

CASE & DFC are co-sponsoring this important Service Provider Working Group meeting

Service Providers Working Group

Learn about how Dignity Fund priorities for the next four years will be developed, starting with this meeting.

Join staff from the Dept of Disability and Aging Services (DAS) who will facilitate a discussion about the upcoming **Services and Allocation Plan (SAP)**. It is a four-year funding and strategic plan that directs how money from San Francisco's **Dignity Fund** (established by Proposition I in 2016) is distributed. It builds on the findings of the Dignity Fund Community Needs Assessment (DFCNA).

This Service Providers Working Group meeting is the first step in DAS's process to develop the SAP. The session will provide a high-level overview and will also include small group discussions on attendees' ideas for implementing recommendations from the Needs Assessment.

Wednesday, October 28, 2:30 to 4:00 *
