The Department of Disability and Aging Services (DAS) requests authorization to enter into a contract with Central Communications Inc. for the period of April 1, 2022 to June 30, 2026, in an amount of \$106,250, plus a 10% contingency for a total amount not to exceed \$116,875. The purpose of this contract is to provide 24-hour backup and some direct coverage for the Adult Protective Services (APS), Family and Children Services (FCS), Public Conservator (PC), and Public Guardian (PG) Hotlines. These lines are used by the public to report suspected abuse, neglect, maltreatment, and/or exploitation of seniors, dependent

adults, and/or children as well as urgent issues with PC or PG conservatees.

Background

Per state regulation, the APS program is mandated to accept and respond to elder and dependent adult abuse reports on a 24-hour basis. Similarly, FCS is also required to maintain 24-hour reporting and response capability for child abuse reporting. Lastly, both PC and PG programs are legally responsible for individuals who are under a conservatorship, including health and urgent issues that occur during non-business hours. Through this contract, the Human Services Agency will continue to provide an efficient and reliable method for first responders, mandated reporters, and community members to make reports to APS, FCS, PC, and PG during designated hours.

Services to be Provided

Contractor will provide live weekday, weeknight, weekend, and holiday coverage for both the APS, FCS, PC, and PG Hotlines, as needed. Contractor will ensure that information is accurately accepted from callers and subsequently transferred to designated APS/FCS/PC/PG staff.

The Contractor will provide as needed back-up coverage for the APS, FCS, PC, and PG reporting lines in the event of a local disaster, if HSA staff or functioning phone lines are not available to take reports. Contractor will provide regular and individualized reports to APS, FCS, PC, and PG programs to facilitate the ability of the program to track call volume.

Unlike FCS and APS, PC and PG are not legally required to have 24-hour coverage. However, PC and PG are providing these services in order to ensure timely response to urgent needs of conservatees and also to promote consistent and effective communication with partners such as hospitals, licensed care facilities, and providers.

For more specific information regarding the services to be provided to the target population, please refer to the attached Appendix A.

Selection

Contractor was selected through Informal Bid (IB) #1008, which was issued in February 2022.

Funding

Funding for this contract is provided through a combination of Federal and County General Funds.
