The Office of Benefits and Family Support (BFS) requests authorization to modify the existing grant with San Francisco Community College District (CCSF) for an additional period of October 1, 2021 to September 30, 2022 and for an additional \$863,527 plus a 10% contingency for a new grant amount not to exceed \$1,899,759. The purpose of the grant is to provide specialized training for foster family agencies, resource families and group homes. This modification extends the grant term for one additional year.

#### **Background**

Since 2002, this grant has provided specialized training services to assist Resource Family Approved (RFA) resource families, group homes, Foster Family Agencies (FFA), Family and Children's Services (FCS) staff, and other Title IV-E eligible agencies to improve the quality of care for children and youth in foster care.

For the past year, CCSF has been the lead agency with two subcontractors: Edgewood Center for Children and Their Families and Seneca Family of Agencies. CCSF's provision of in-kind match resources allowed the Department to draw down Federal funds for this project.

## **Services to be Provided**

Grantee, along with the two subcontractors, will continue to develop and provide a training curriculum based on training themes established by FCS and the Parenting for Permanency College (PPC) Collaborative that fulfills the requirements of the Title IV-E federally funded training program, as well as aligns with current child welfare best practices. Classroom training will be offered to FCS and other Title IV-E eligible service providers and resource families. This core function will also include coordination of training schedules and locations, publication of a quarterly training calendar, providing appropriate classroom facilities and materials for courses offered, tracking feedback from course participants to ensure training meets targeted objectives, and maintaining minimum census levels for training sessions scheduled.

For more specific information regarding services to be offered by the Grantee, please refer to Appendix A – Services to be Provided (attached).

#### Performance

CCSF was able to transition to offering trainings virtually online at the start of the pandemic. However, they faced some unique challenges as a result of the pandemic and having to pivot all trainings to a virtual platform. While certain classes work well in an online format, classes that require in person coaching such as CPR, have been greatly affected. Moreover, City College had to cancel 100+ training hours in the beginning of the year due to a delay in contract renewal. As a result, the total training hours provided by City College this year dropped significantly.

City College did exceed expectations in all other areas. They were able to enroll twice as many people even with fewer classes offered. On average, they served 400 unduplicated individuals per quarter, greatly exceeding the annual goal of 600. Additionally, both of the subcontractors, Edgewood and Seneca, are on track to meet objectives in all areas for FY 20-21.

#### **Site Locations and Hours**

Classes will be held Monday-Friday, between 8 AM to 10 PM, and on Saturdays according to the needs of the clients and/or virtually during the COVID Pandemic.

#### **Selection**

Grantee was selected through Request for Proposals #733, which was competitively bid in April 2017. The grant is being extended for one more year due to Mayor Breed's 35<sup>th</sup> Emergency Declaration, which allows Departments to continue services for up to one year without a procurement due to the Covid pandemic. It is the intention to issue an RFP this upcoming year.

## **Funding**

Funding for this grant is 100% Federal Title IV-E funds. The Title IV-E funding mechanism allows the Agency to draw down federal funds for match provided.
